Monthly Service Highlight

Collision Center works on:

- **Body Work** - including dents; fill, grind, and sand affected areas; and apply matching paint to your car's body.
- **Frame Work** - To get your car back on the road - after a collision - have its framework worked on by experts.
- **Hard Parts Repair** - Your vehicle needs hard parts such as cases, drums, hubs, mounts, planetaries, pressure plates, pump assemblies, shafts, sun gears, supports, and valve bodies.
- **Paint** - If your car experiences scratches and dents, we can have your car patched and repainted.
- **Welding** - Our technicians have the training needed to perform safe and proper welding with the essential and proper shop infrastructure and equipment for your vehicle.
- **Windshield** - When your windshield is damaged during a collision, consider our collision repair services. Depending on the severity of the damage, we can either replace or repair your windshield.

Thank you!

"My Cummins was towed here for extended warranty work on the engine. The shop foreman fully diagnosed the problem and found that problem to be an old recall that was not satisfied, eliminating any deductible and ensuring those responsible are accountable. All in all; this shop is looking out for the customer." Shawn

"Really appreciate their honesty and always keeping me updated as to their progress with my vehicle. Pricing is affordable and upfront, also like the fact that they take the time to explain the issue and any future issues they have seen. A very reliable auto shop in Sierra Vista." Milam G.

"Excellent service and great group of people. Cody and Jessica are an awesome pair of faces behind the counter!"
John R.

**As always, thank you
for your continued
support.**
